## Little League Playoff Sees Tigers and Cubs Pitted in Sunday Game

**Tigers' 6-4 Win Over Cubs Sunday Tied Them With Giants for Lead**

The big tie game play-off between the Tigers and the Cubs is set for Sunday at 1 p. m. at the Little League field.

This will be the all important game for the Tigers because it will help determine their chances at the first round title.

Last Sunday the victorious Tigers proved their prowess over the Cubs by a score of 6 to 4. This gave Coach Jack Field's team a record of 11 wins out of 13 games played.

The Tigers and Giants are tied for the lead in the first round of play. If the Tigers can take their remaining game from the Sox, and win the tie game play-off with the Cubs, they will clinch the first round title. In the second round they have a tie for the title even if they lose their remaining game against the second place Yankees.

### Play Yanks Next

The Yankees are scheduled to play the Tigers August 23 in anticipation of breaking their second place standing. Out of three games the two teams have played this year the Yanks have won two and the Tigers one. The only other defeat for the Tigers this season came from the Cubs.

After last Sunday's game the team standings were as follows:

Team	Sponsor	Win	Loss	Pct.
Tigers	State Bank	5	2	.714
Giants	Antioch Lbr.	5	2	.714
Yankees	Nat'l Bank	5	3	.625
Sox	Dupre Heating	3	3	.500
Cubs	Servicenter	2	5	.285
Dodgers	Lauren & Blackman	1	6	.142
Second Round of Play				
Tigers	State Bank	6	1	.857
Yankees	Nat'l Bank	4	2	.666
Cubs	Servicenter	4	3	.571
Giants	Antioch Lbr.	1	3	.250
Sox	Dupre Heating	1	4	.200
Dodgers	Lauren & Blackman	1	4	.200

Games scheduled for the balance of the season are as follows:

- Thursday, Aug. 15, 6 p. m., Dodgers vs. Sox.
- Friday, Aug. 16, 6 p. m., Dodgers vs. Giants.
- Sunday, Aug. 18, 1 p. m., Tigers vs. Cubs.
- Sunday, Aug. 18, 2 p. m., Giants vs. Sox.
- Tuesday, Aug. 20, 6 p. m., Yankees vs. Dodgers.
- Wednesday, Aug. 21, 6 p. m., Tigers vs. Sox.
- Thursday, Aug. 22, 6 p. m., Giants vs. Sox.
- Friday, Aug. 23, 6 p. m., Tigers vs. Yankees.
- Sunday, August 25, 6 p. m., Giants vs. Sox.
- Designates first round games.

## Antioch Lions Discuss Outing at Aqua Center

Gala festivities are planned by the Lions Club of Antioch. At Monday's meeting at Smart's Country House, plans were made to commemorate the club's 20th anniversary.

A record group of 46 members met to discuss plans for the outing at the Aqua Center on August 26, where refreshments will be served and awards made to members completing 10, 15, or 20 years of service with the Lions Club.

**New Members**  
In addition to honoring the long-standing members, the organization welcomes four new members. Secretary John Hojem reported. They are, Hillard Tobieski, Ray Toft, C. F. Shaw and John Wagner.

Another Lion, Bill Brook, reports plans for the annual Broom Sale, but arrangements are not yet completed. The brooms are made for the sale by the blind workers of the Lighthouse for the Blind. The Lions Club has always been active in sponsoring this project.

## Three Township Drivers Lose Driving Privileges

Two Lake Villa motorists have lost their driving privileges, according to Secretary of State Charles F. Carpenter.

The license of George Marron, RED 1, was revoked for drunken driving.

The license of Peter M. Martin, Cedar Lake, Lake Villa, was suspended for having three convictions for traffic violations.

The license of Vernon J. Tracy, Long Lake, was revoked for having three violations, Carpenter said.

## PICNIC ROUNDUP...

## Contracts Are Let For Antioch Grade School; Should Be Ready for Pupils by Fall of 1958

Contracts for building the new Antioch grade school on the Oakland site were awarded by the Board of Education Tuesday night.

Norman Jedele, president of the board, said the school should be ready for occupancy by the time the 1958 fall term starts.

Roy Nordstrom of Fox Lake won the general contract, for \$241,525. The electrical work went to Carey Electric and Plumbing, Antioch, for \$22,576.

Heating and ventilating will be done by Standard Engineers, Waukegan, for \$44,078. Carey Electric will do the plumbing for \$34,560.

Jedele said the building, to be located on Loon Lake road, will have 16 rooms, a cafeteria, and an all-purpose or utility room.

The structure will be of one-story brick construction.

Present plans call for completion of just half of the classrooms, with the remaining eight being "shelled in" for future finishing, he said.

The foundation of the building is already in place.

A \$394,000 bond issue was recently voted to finance the project, which will accommodate 680 pupils.

## Student's Costs Here Are Lowest in County

The cost of educating a student in Antioch Township High School District 117 in the 1955-56 school year was the lowest in Lake County.

The cost per student that year was \$397, according to Principal A. L. Dittman.

In 1946-47 the cost was \$237, and in 1950-51 it was \$353, he said.

The board of education will ask for additional funds at a referendum Sept. 7.

The 1956 educational tax rate limit for Antioch was .65.

In Round Lake it was .92, in Grant township it was .75, and in Grayslake it was \$1.

## What Happened to Jim? We Knew All the Time!

Shucks! We knew where he was all along!

The Chicago Daily News, which runs a regular feature entitled "What Ever Became of . . .", this week did one on Antioch's Jim McMillen.

"What ever became of Jim McMillen, the University of Illinois football star and former wrestler who was considered one of the best guards in professional football when he played with the Chicago Bears from 1924-28?" the article asked.

The news feature went on to explain that McMillen, former village president of Antioch, was captain of the 1924 Illini grid team. He was also one of the nation's outstanding heavyweight wrestlers for more than a decade.

"During World War II, he was athletic director at Navy Pier," the article continued. "He later served 17 months in the Pacific, with the rank of commander."

What ever became of him?

Well, in case you're a stranger in town, Jim, who owns a farm here, operates a cement block and septic tank firm in Antioch. He is also vice-president of the Chicago Bears professional football team.

McMillen is married, and the father of a son and daughter.

For all your days prepare, And meet them all alike: When you are the anvil, bear—When you are the hammer, strike.—Edwin Markham.

## Abominable Cougar Seen In Felter's Subdivision

That elusive cougar that has been sighted all along the North Shore area between Chicago and Winthrop Harbor has been "sighted" in Antioch.

Mrs. Martin Goodman of Felter's Subdivision told the sheriff's office she and a neighbor saw a large animal that looked like "a huge black cat."

They said the animal leaped from a tree and attacked a German Shepherd dog in the Goodman yard. The animal then disappeared into the night.

## Lake Villa Girl Enters Miss Waukegan Aviation "Flying Queen" Contest

A Lake Villa girl, Donna Andersen, 19, of RFD 2, Box 709, has announced her candidacy for the title of Miss Waukegan Aviation.

The daughter of Mr. and Mrs. Carl W. Andersen, she is one of the 18 Lake County girls vying for the title.

The contest, to stimulate aviation in the Lake County area, is sponsored by Wayne K. Carpenter, manager of the Waukegan Airport.

Miss Andersen, who has never flown before, says she has her eyes on an Aviation scholarship, one of more than \$1,000 worth of prizes going to the winning girl.

A graduate of the Antioch Township High school, Miss Andersen attended Sullivan High school in Chicago for two years before coming to this area.

She is employed in the display advertising department at The Waukegan News-Sun.

Her brother, Ramon, is on the police force at Lombard. He is a former Lake County deputy sheriff.

Miss Andersen has blonde hair, blue eyes, and is 5 feet 6 inches tall. Her favorite winter sport is ice skating, and in summer she spends her spare time swimming.

The Miss Waukegan Aviation contest, climaxing a full summer of activity at Waukegan Airport, will end Oct. 27 with the crowning of the queen at an Aviation Ball at the Waukegan Elks Club.

## Lindenhurst Woman Proves Honesty When Waukegan Woman Loses Wristwatch

Old Diogenes and his lantern would have no trouble finding an honest person in Lindenhurst.

All he'd have to do is knock on the door of the Gordon Beaulieu home, 38 Old Elm rd.

Mrs. Beaulieu, the mother of two boys, found a valuable keepsake wristwatch in an alley in Waukegan.

She located the watch's owner through a classified ad in a newspaper, and notified her that the watch had been found.

The Waukegan woman, who lost the watch while alighting from a taxi, made a hurried and grateful trip to Lindenhurst to reclaim it.

## Antioch Leads Illinois In Gambling Activities U.S. Revenue Dept. Says

### Does Your Cigarette Taste Different This Summer Mr. Nicholas?

Elmer Nicholas smokes a mighty powerful cigarette.

At least that's the way it looked last night.

He walked out into his yard at Channel Lake, lit up a smoke, and "POOF" . . . a big ball of fire!

Fire Chief Edgar Simonsen said the ball of fire was caused by leaking propane gas, from an underground tank behind a cottage next to the Smith Hotel.

Nicholas, of Chicago, who is renting the cottage, walked into the cloud of the gas just as he lit a match.

Simonsen said no one was injured, and no damage resulted.

The fire, coming out of a hole in the ground when firemen arrived, was put out with chemicals.

## Urge Rural Land Owners Plan Tree Planting Now

Owners of rural land interested in planting trees next spring should make their plans now.

The reason for early planning, according to Elmer Offerman, soil conservationist, is to make certain that planting stock is available. This is especially true of stock from the state nurseries.

The planting of trees and shrubs for the purposes of soil and water conservation, field shelterbelts, protection of watersheds and wildlife habitat, is on the increase Offerman said.

The recommended varieties for sloping, well drained sites are red, jack and scotch pines. On the more level areas or bottomland, varieties such as cottonwood, ash and sycamore are recommended.

Offerman suggested that multi-flora rose be planted around these areas to serve as a living fence and wildlife cover.

The State Division of Forestry at Springfield will accept orders as of Sept. 1, for spring planting. Complete information is available from your farm adviser and soil conservationist at the Farm Bureau in Grayslake.

## Registration Dates Told For High School Students

Where did that summer vacation go to?

Monday is the first day for Antioch Township High School students to register for the fall term.

Hours, through next Friday, are from 9 a. m. to noon, and 1 to 4 p. m. Those unable to register days may do so next Thursday between 7 and 9 p. m.

Tests for incoming freshmen, not tested last spring, will be given at 9 a. m. Tuesday.

The first day of school is Sept. 4.

## Home From Florida

Charles J. Cermak, Sr., arrived in Antioch Tuesday from Florida to take up permanent residence here with his son Charles Jr. Mr. Cermak has been living in Lake Worth, Florida, for the past 12 years. Prior to that he resided at Loon Lake for 23 years.

## Colorful Indian Ceremonial Dance Saturday At Deer Lake Boy Scout Camp East of Antioch

An authentic Indian tribal dance will be held Saturday night at Boy Scout Troop 92's summer camp at Deer Lake.

Scouts from the Antioch troop are playing hosts to other area Scouts from Troops 80, 86, and 91 during the 11-day session which ends Aug. 20.

Mel Cermak, Scout press agent for the camp, said it is a "boy run" camp, operated by a staff ranging in age from 13 to 17. The troop leader is Richard Prange, assisted by Steven Aschenbrenner.

James Horton, scoutmaster for Troop 92, and Chester White, camp adviser, work with the Scouts during their off-duty hours nights and week-ends.

**Public Invited**  
The public is invited to visit the camp, located just east of Antioch off Rte. 173.

Activities include swimming,

## State's Attorney Moran Says Gamblers Face Arrest or Loss of Licenses

Antioch is now the gambling capital of Illinois, according to the U. S. Department of Internal Revenue's Chicago district office.

H. Alan Long, district director of internal revenue, said more federal gambling tax stamps for slot machines have been issued to Antioch than any other community in Lake County—and Lake County leads the entire state for the number of stamps issued.

Long said that \$250 slot machine tax stamps are issued for slot or pinball machines that pay off as gambling devices.

Pinball machines used for amusement only require a \$10 amusement tax stamp, he said.

The internal revenue service this week issued 27 slot machine gambling tax stamps to Antioch residents, and five more to persons in Lake Villa.

This brings the Lake County total to 262 since July 1.

## Coroner Babcox Will Enter Sheriff's Race In 1958, he Declares

Coroner Robert H. (Mickey) Babcox has announced that he is a candidate for Lake County sheriff. He is the first person to throw his hat into the ring for the 1958 election.

Babcox, of Grayslake, is rounding out his second term as coroner. Prior to being elected to public office he served as a deputy sheriff.

A licensed mortician and embalmer, Babcox is married to the former Arden Strang, whose father operates the Strang Chapel in Grayslake.

**Catches Killer**  
Babcox has attracted wide attention through his reorganization of the coroner's office.

A Chicago newspaper recently credited him with "putting the coroner's office on wheels" by installing a two-way police radio in his car so that he can be reached at all times.

Long active in police work, Babcox, along with Deputy Sheriff Hugh Kennedy, was instrumental in the capture of Maxine Jarolimek who shot and strangled her mother-in-law at Channel Lake on Valentine's Day, 1956.

Mrs. Jarolimek is now serving a life sentence in prison for murder.

## Your Electric Current Is From New Center

Antioch's electrical service is now being directed from Public Service Company's newly constructed service center in Waukegan.

The new headquarters will facilitate service to approximately 49,000 customers in two-thirds of Lake County. With this in mind, the company plans to consolidate district operations formerly directed from two different locations.

"It is part of the company's effort to keep pace with the growth of Lake county and the ever increasing demands for electricity by our customers," explains Owen Fordham, local superintendent for the utility.

The utility's new service center will serve as the administrative control for additional operating and service personnel headquartered at the Lake Villa reporting center.

Thirty-five volunteer firemen from Antioch, Grunee, and Fox Lake met in the Antioch station Tuesday night. Fire Chief Edgar Simonsen said water fights were held, after which refreshments were served.

## Two Rezoning Requests OK'd By County Board

Two petitions for rezoning in Antioch Township have been approved by the County Board.

At its August meeting the County Board approved the request of Louis and Dorothy Pregrenzer to rezone 1½ acres on the west shore of Grass Lake from residential to business use.

The property lies between Haling road and Lake avenue.

The family has operated a resort on the land since 1908. The rezoning request was so the kitchen and dining room may be enlarged, and to bring the property into conforming use.

The other petition approved was that of the First National Bank of Waukegan to rezone six acres on the west side of Rte. 21, just south of Beach Grove road, from residential to business.

The bank said several requests to purchase the land as business property have been made.

## Sales Tax Revenue For Antioch Is Announced

Antioch will receive \$3,766.20 from sales tax receipts collected by local merchants in June, according to the state revenue department.

Lake Villa will get \$649.91 from money collected over that same period.

City sales tax collections during June netted Illinois municipalities a total of \$4,062,007.90.

### What We're up Against

"The military do have great virtues but thrift is not one." Thus spoke Senator Douglas of Illinois. He added that "The military have a built-in bias against economizing."

The Senator's remarks were made in support of a \$2.5 billion cut in the defense budget that had been recommended by the House and was up for consideration in the Senate. Senator Douglas certainly did not approve this cut because he wants to weaken our defense—He is as strong an advocate of a top quality military establishment as anyone in or out of the government. But he had carefully examined the proposed defense budget in detail, and had found a number of expensive items that have nothing to do with military security. He cited examples, among them swimming pools, buffet tables, and extensive remodeling of a golf course at one of the bases.

How did Senator Douglas make out? The Wall Street Journal answers that question in these words: "Well, the Senator built his case so strongly there's scarcely anything that can be added by us. One would naturally assume, too, that the other Senators after all their talk about economy would agree with Mr. Douglas. And that they would have gone along with the House in the \$2.5 billion slash it had recommended in the military budget."

"But that just isn't the way the senatorial minds work. The Senate voted to restore almost all the \$2.5 billion slash. Plainly that will buy a lot of swimming pools, buffet tables and putting greens for the nation's warriors."

And that shows what the taxpayers of this country are up against, not only in the military but in all of the hundreds of spending departments of government.

\* \* \*

### Grade-A Bargain

The American people demand good mail service. If, for any reason, service standards deteriorate, an uproar is heard from one end of the country to the other.

The Post Office Department is responsible for the mails. But there is another organization deeply involved—a private, taxpaying organization—without which good and economical mail service would be an impossibility. That organization is the railroad industry.

Every community in the United States is served by railway mail service. The vast majority receive their mail by railroads direct, and the rest by railroads in combination with other carriers. Putting it statistically, more than 99 per cent of our entire population lives in the 3,070 counties served directly by railroads.

How much does railroad mail service cost? The answer will surprise most of us. The railroads get just one-eighth of one cent for carrying a first-class letter—and they move that letter an average of 487 miles for that tiny charge. Then, for about one-eighth of one cent more, the railroads provide the hundreds of mail cars in which mail is sorted en

route, plus the services of thousands of their own employees who sort, load and unload sacked mail, plus the use of all manner of necessary facilities—platforms, conveyor belts and chutes, switching and terminal services, and so on.

All this is provided for a total of about one-quarter of a cent for a first-class letter. This is a grade-A bargain if there ever was one.

\* \* \*

### On Their Doorsteps

Advocates of socialized electric power are going to force federal power development down the throats of the American people or know the reason why.

The Hells Canyon Dam fight is a classic example. After long investigations and hearings, the Idaho Power Company was granted licenses by the government to build three low dams on the Snake River that would develop practically the same amount of kilowatts as a much more costly federal high dam. The power company dams will not take tax dollars to build but will pay heavy taxes instead. The Governor of Idaho says that without this power "We will have to shut down industries and curtail irrigation pumping."

The advocates of federal (socialized) power development shout power shortage in one breath and then do everything possible to prevent power development in the next breath.

The House Committee has just turned thumbs down on the latest move to delay power development on the Snake for six or seven years, while waiting for problematical Congressional authorization to build the federal high dam. But the socialized power bloc is still in there fighting.

It is hard to believe that Congress can be bludgeoned into considering federal licenses already issued for power development, as mere scraps of paper. It will be interesting as a matter of political history to keep a list of names of those advocating such action. Then if there are disastrous power shortages in the area due to delayed construction they cause, it will be easy to lay the record on the doorsteps of those responsible.

\* \* \*

### Standing Room Only

"American products—from live piglets and chicks to hi-fi sets, frozen foods, cars and clothes—are playing to standing room only in Poznan, Poland."

Thus states the New York Times Magazine. The occasion was the International Trade Fair at Poznan. The American exhibit—which was set up by the Department of Commerce with the cooperation of 300 private companies—was the hit of the show from opening day on.

The Times Magazine carried a number of photographs showing Polish people staring at the exhibits. There is a look of wonder on their faces—as if they couldn't quite believe that such splendid foods and commodities can be obtained by ordinary mortals.

One can understand that feeling on the part of the Poles. For they live in a rigidly-controlled, communist-type society in which living standards are woefully low. And the significant part of all this is that the American wares shown at the fair can for the most part, be bought at retail stores in every farthest reach of this country. And the prices, save for a few top-luxury items, are within the means of the average American family.

The competitive free enterprise system makes possible American mass production and its full partner, American mass distribution. It thus makes possible the million and one aids to good living we take for granted—from a package of frozen food to the latest in labor-saving home appliances. The Poles had a brief look at what we enjoy every day of the year.

Bundaberg, Queensland, Australia. Miss Vuchond and Mrs. Graham who have not seen one another since early childhood are spending the next two weeks getting re-acquainted.

James Regan, Berkeley, Ill., is visiting his boy friend Joe David Downs for a week. The two boys are busy enjoying themselves.

Congratulations to Mr. and Mrs. Adolph Rohrer on the birth of a baby daughter on Aug. 5. The new little Miss tipped the scales at 7 lbs., 12 1/4 oz., and was named Laurie. Waiting at home to see the new little sister were Billy and Gary.

Mr. and Mrs. Frank Smeeck became grandparents for the eighth time Friday when June's other son and wife, Mr. and Mrs. J. Henry Johnson, of Muncie, Kansas, became the parents of a second son. This now makes a total of 6 children for the family, four girls and two boys. The new little boy born Aug. 9, weighed in at 7 lbs. 1 oz., and was named Eric.

The Pinochle club met Friday,

Aug. 9 at the home of Mrs. Jean Beller. The usual and delicious refreshments were served and enjoyed by everyone. The next meeting will be in two weeks and will be held at the home of Mrs. Zenia Neumann.

The Altar and Rosary Society is sponsoring a tea and shower for the nuns of Prince of Peace church. All women of the parish are invited to attend this shower on

Wednesday evening, Aug. 21, at 7 p. m. at the new church.

Mrs. Rose Scholastico and children spent a week visiting at the home of her parents, Mr. and Mrs. G. DeCicco, in Chicago.

Sister Mary Stephena, third and fourth grade teacher at St. Peter's School, is a patient at Highland Park hospital where she will remain until Aug. 15.

**COUNTY ZONING NOTICE**

STATE OF ILLINOIS ss.  
COUNTY OF LAKE  
TO WHOM IT MAY CONCERN:  
PUBLIC NOTICE is hereby given to all persons in the Town of Antioch, Lake County, Illinois, that a public hearing will be held on September 3, 1957, at 1:30 P. M., in the Village Hall, Antioch, Illinois, relative to a proposal to vary the terms of the Lake County Zoning Ordinance, or to reclassify by amendment thereto, from the R-4 Residential and F-Farming Districts, to the B-3 Business District, the following described real estate, to-wit:

PARCEL 1. That part of the Southeast quarter of Section 13, in Township 46 North, Range 9 East of the 3rd P. M., described as follows: Commencing at the Northeast corner of the Southeast quarter of said Section 13; thence West along the North line of said Southwest quarter of said Section 13 to the water's edge of Lake Marie; thence Southeasterly, Southerly and Southwesterly along the water's

edge of said Lake Marie to a point thereon 40 feet East of the East line of Block 6 in Merrywood Point Subdivision; thence Southeasterly to a point on the South line of said Block 6 (extended Easterly) 50 feet East of the Southeast corner of said Block 6; thence Southwesterly to a point on the North line of Block 8 in said Merrywood Point Subdivision (extended Easterly), which point is 32 feet East of the Northeast corner of said Block 8; in said Merrywood Point Subdivision (extended Easterly) which point is 32 feet East of the Northeast corner of said Block 8; thence South parallel to the East line of said Block 8, 200 feet to the South line (extended Easterly) of said Block 8; thence East along the South line of said Block 8 (extended Easterly) to the East line of said Section 13; thence North along the East line of said Section 13 to the place of beginning.

PARCEL 2. That part of the Southwest quarter of Section 18, Township 46 North, Range 10 East of the 3rd P. M. described as follows: Commencing at the Northwest corner of Lot 2 of the said Southwest quarter; thence South along the West line of said Southwest quarter to its intersection with the South line (extended Easterly) of Block 8 of Merrywood Point Subdivision (said subdivision being in Section 13, Township 46 North, Range 9); thence East along the South line of said Block 8 (extended Easterly) 200 feet; thence North parallel to the West line of said Section 18 to the North line of Lot 2 in the Southwest quarter of said

Section 18; thence West to the place of beginning.

PARCEL 3. All that part of Lake Marie in the Southeast quarter of Section 13, Township 46 North, Range 9 East of the 3rd P. M., lying North of Parcel 1 hereinbefore described.

PARCEL 4. Part of the Southeast quarter of Section 13, Township 46 North, Range 9 East of the 3rd P. M., described as follows: Commencing at a point in the South line of Block 8 (extended Easterly) of Merrywood Point Subdivision, which point is 32 feet East of the Southeast corner of said Block; thence South parallel to the East line of said Block 8, 100 feet; thence East parallel to the South

line of said Block 8, (extended Easterly) 400 feet; thence North parallel to the East line of said Block 8, 100 feet; thence West to the place of beginning.

As a result of the petition of PAUL FERRIS AND CHARLES FERRIS, which petition is on file and available for examination in the office of the below named Board, Court House, Waukegan, Illinois.

All persons interested are invited to attend said hearing and be heard.

LAKE COUNTY ZONING BOARD OF APPEALS  
S. J. SORENSON, Chairman

# Automation — Is It Good or Bad?

Automation—sometimes accused of outdating the human being in the production process—is on the brink of a manpower shortage.

Not only is it creating the need for more people with college level training, but also for more technicians trained in the complexities of new processes, according to Robert J. O'Brien, assistant manager of mechanical engineering at Armour Research Foundation of Illinois Institute of Technology.

And with a smaller working population due to the decline of births during the depression, and an expanded market at both ends from more older people and children, automation is more to be desired than feared," O'Brien said.

One of the greatest social imports of automation is the "across the board" influence on education, he noted. Taking the routine monotony out of the working process is creating a much greater emphasis on intelligence.

Already industry and the military are experiencing shortages of qualified people to maintain the complex automatic programs, he said.

In addition, we have being created an entire new field for industrial management, which needs qualified people. With the controls of industry which automation provides, they must know what information is needed, and how to interpret it, said O'Brien.

Immediate knowledge of stocks, inventories, sales, and production makes it possible for the industrial manager to apply weapons of analysis to his business that up to now have been used only in science. With these, he is able to make rational decisions rather than rough estimations.

This makes an entire new status in industry for the "manager," a man usually without heavy investment in his company—though well-paid—and still in a position to wield a great deal of influence.

At the same time, industry needs the man who has been broadened and deepened by education in the humanities and liberal studies, O'Brien warned. The man who is in a position to evaluate an entire industry as a complete mechanism, must perform his task in relation to the human beings involved—otherwise automation will be in trouble.

"We already are seeing that automated production lines do not create a displacement of workers. Rather, as with the first industrial revolution, we're able to produce more things that were not economically possible before."

For example, he said, there's a good chance that not so many years from now the housewife will be able to easily launder the entire family wardrobe—and probably won't have to iron it.

Automatic processing of raw materials for synthetic fibers for

garments similar to new washable summer suits for men, undoubtedly will be broadened to include winter suits, shirts, neckties—practically all items of clothing for the family, he said.

In communications, automated facilities are rapidly making almost anything possible, he stated. With the tremendous strides that have been made in just the past few years, speculation as to what we can expect in the future is unlimited.

But the thing to remember, according to O'Brien, is that no machine will ever be able to perform what the human brain cannot. It can accomplish many things faster and with more accuracy, but it will never outdo the human thought processes that created it.

## Tax Facts

"Forecasts that the standard work week will be reduced to 35 hours or less within five years presents a great challenge to governments," the Taxpayers' Federation of Illinois stated today.

Increased leisure means a greater demand for recreation services. Heavier use of playgrounds, golf courses, boating and fishing facilities, swimming pools, campgrounds, zoos, libraries, summer theatres, auditoriums can be forecast and capital outlay for new facilities can be anticipated.

More leisure means more time traveling. This adds up to traffic problems, obsolete highways, and airport needs.

"Shorter work weeks in industry will mean a shorter work week for government. Coupled with the shorter work week will be new demands for government services. Obviously, governments are going to have to reappraise operations and become more efficient or else increased costs will bankrupt taxpayers," the Federation pointed out.

Here are two concrete examples of ways to increase efficiency of government listed by Federation experts:

1. Use of electronic computers in daily tasks of government following example of industry. Such "brains" can be used in the drafting of highway plans, in payroll processing, in tax computing and billing. A single modern computer could prepare payrolls of all downstate cities in less time than is now spent by the payroll clerks of a single medium sized city.

2. Integration of existing departments and functions with resulting greater productivity per employee. Steps in this direction have recently been undertaken in some cities by combining police and fire forces into a single department of public safety. Under this plan public safety officers are placed in roving squad cars equipped to handle most frequently met fires. The men are

trained in both police and fire work. Experience in Oak Park, Michigan, has been that such roving officers reach the site of fires more rapidly than the traditional fire company and have been able to extinguish 70 per cent of all fires without

help. At the same time more police services were afforded citizens. "The aggressive attack by industry through automation to increase productivity must be copied by government," the Taxpayers' Federation concluded.

Mr. and Mrs. Henry TenBrin, Chicago, called on Mrs. William Harms Thursday evening.

Mr. and Mrs. Harold Boulden and Shirley, Mrs. Ziebell, Karen Nelson, Burlington, called on Mrs. Paul Ganzlin, Friday evening. Shirley and Karen remained for the weekend.

Mrs. Ruth Miller, Mrs. Guy Loftus and Mrs. Marlin Schnurr attended the Burlington membership roundup of the B. P. W. at the White Oaks, Wednesday evening.

Westosha B. P. W. Club meeting will be held Aug. 19 at the home of Mrs. Chester DeWitt, Silver Lake. The program will be on Public Relations. Hostesses are Mrs. Neunfeldt, Mrs. Sownichsen, Mrs. Art Schultz and Mrs. Chester DeWitt.

Mr. and Mrs. Ralph Orr, Waukegan, called on Mr. and Mrs. Harvey Brown, Sunday.

Mrs. Don Herrick, Oak Park, Mrs. Walter Kilian and Debbie, Mrs. Ford Herrick, Chicago, spent Thursday and Friday with Mrs. Harry McDougall.

Miss Barbara Rasmussen, Oak Park, spent the week-end with Mrs. Harry McDougall.

Mr. and Mrs. Charles Kohlmann, Chicago, Adolph, Hannah and Ella Neuman, Racine, Mr. and Mrs. Edward Tichy and family, Barrington spent Sunday with Mr. and Mrs. Gust Neuman.

Mr. and Mrs. Raymond Hirschmiller, daughter, Judy, and son, George, Valmar, spent Sunday evening with Mr. and Mrs. Floyd Gyger, Sr.

Mrs. Floyd Gyger, Sr., returned home Tuesday from Burlington Memorial hospital. She wishes to thank everyone for the nice gifts and flowers.

Mrs. Reinhardt Kieper and Marjorie, Antigo, Wis., spent Wednesday to Friday with Mr. and Mrs. Cyril Pacey.

Mrs. Augusta Ehlert, Mrs. Don Schmalfeldt, Silver Lake, Miss Eleanor Ehlert, Powers Lake, spent Thursday with Mrs. Alex Schubert and Fred Albrecht.

Mr. and Mrs. Donald Kreuger, Robert and Allan, Arthur Hartman, Kenosha, Mr. and Mrs. Charles Clark, and Edgar Clark spent Sunday at the Albrecht-Schubert home.

Mrs. Millie Darby returned to Kenosha Sunday after a few days stay at the Schubert-Albrecht home.

Mr. and Mrs. Geoffrey Goulding and family and Mrs. Henry Vincent spent Sunday evening with Mr. and Mrs. Floyd Memler to help celebrate Mary Lou Memler's birthday.

Mrs. Ed Worner, Joliet, Ill., and Miss Madeline Friedhoff, Kenosha, spent Sunday afternoon with Mrs. Herman Frank.

Sadie Davidson and family of New York called on friends in Wilmot Saturday.

## Letters to The Editor

Attention: Social Editor  
Madam:

On the behalf of all the members of the Antioch Brush and Palette Club, I want to tell you how much we appreciate all the fine items you have printed in the Antioch News in the interest of our club.

We are keeping a history and scrapbook covering the activities of our group, and your write-ups are all saved and certainly provide a valuable source for the chronology of our, thus far, short history.

Thank you so much for the space you have given us in your newspaper.

Yours very truly,  
Jan Greenwood, Secy.  
Antioch Brush & Palette Club

## YESTERDAYS

Antioch and the Antioch Lake Region residents have always been noted for their many talents, amazing ingenuity, and inexhaustible industry, and the Antioch News has unlimited amounts of proof of the accomplishments of the people. Let's take the month of August, 1947, as a very small example.

On Aug. 7 it was reported that two Antioch 4-H club members, Betty Jean McDougall and Adella Rentner, were among the seven Lake county girls chosen to go to the Illinois state fair to model their prize winning garments.

One week later winners of the poppy poster contest sponsored by the American Legion Auxiliary were announced. First place in Class No. 1 was won by Arlene Hanson of the Cedar Lake school. She received a cash award of \$15. Nancy I. Pirsan, of Emmons school won the first prize in the second class, a cash award of \$5, and the second prize went to Ann McMullen, who received \$2.50.

Also on August 14, the Antioch patriotic organizations led in the celebration of the second anniversary of V-J Day. A parade at 8 p. m. was followed by a program in the village park.

Winsor Dalagard was the master of ceremonies and Ed Jahneke, American Legion chaplain gave the invocation. Robert Strang introduced the Legion commander, Everett Hatfield. Also included in the program were Mrs. Gertrude Frazier, V. F. W. Auxiliary president, Mrs. Rose Kennedy, American Legion Auxiliary president, Jack Meyer, and Reverend E. W. Strausser who gave the benediction.

William Lahti played taps. Going back to August 6, the members of the Antioch Fire department defeated the Lions Club members' team in a softball game that evening. The "Smoke Eaters" were on the long end of a 12 to 16

score when the game ended. They challenged the Boy Scouts to a game the following Wednesday evening. The Scout team beat the Lions in an earlier match.

As related in the August 28th issue of the paper 80 members of the Northern Illinois Lumber, Coal and Building Material Dealers association gathered at the Chain O' Lakes country club for the 38th annual golf tournament.

Max Mauerman was the winner in the low gross division with 77, and J. W. Bannon took 2nd honors with 79. Blind Bogey winners were A. J. Vogel, 81; Jack Kramer, 80; Fred Fuhr, 80; Kenneth Hart, 80; and Charles Peyton, 80.

That same week the Angus steer shown by Russel Myers of the Antioch Future Farmers won not only the championship ribbon in his class, but was declared Reserve Grand champion over all breeds at the Kane County fair in Elgin.

George Miller, a junior at Antioch Township high school, and Allen Geibel, sophomore, won the cham-

pionship for their Jersey female. Floyd McKinney, another junior at the high school, won a blue ribbon with a Guernsey heifer.

The Antioch Future Farmers won a total of 41 ribbons, one Reserve Grand Champion rosette, two breed champion rosettes, five championship ribbons, 10 blue ribbons, 19 red ribbons and 4 whites.

At the Illinois State fair the Holstein senior heifer owned by Logan Lundgren, also a member of the Future Farmers of Antioch and a junior at Antioch Township High school, was the blue ribbon winner of a large class of senior calves. The same animal also won the first award at the Illinois Black and White show at Mooseheart, Ill.

Be a good neighbor! When in other states on your vacation obey their traffic laws, too, advises Illinois Division of Traffic Safety. It not only marks you as a good neighbor but a smart vacationer as well and you'll come home relaxed and safe.

## Gray-Waterman Nuptials Performed in Chicago

Miss Lynn Gray, the daughter of Mr. and Mrs. William Gray of Antioch, became the bride of Mr. Lewis H. Waterman, the son of Mr. and Mrs. John Hedlund of Lake Villa, recently. The bride was given in marriage by her father in a double ring ceremony performed by the Reverend Benjamin Will in the Country Church of the City, Chicago.

Miss Gray's ballerina length gown was styled of imported French hand clipped Rose Point lace over taffeta. The scoop neckline featured a rose motif trimmed with seed pearls. A delicate seed pearl-on-lace tiara held the bride's fingertip veil. Miss Gray carried a bouquet arrangement of white gladiolus and stephanotis.

Mrs. Robert Bunkelman, sister of the bride, was the matron of honor. She wore a blue street length ensemble with white accessories and carried a bouquet of gladiolus.

Robert Bunkelman served as best man.

The bride's mother was dressed in pink with white accessories and the groom's mother was attired in beige and brown.

A wedding breakfast was served for the bridal party at the Vikings' Club in Chicago following the ceremony. A reception for approximately two hundred guests was held at the "Castle", routes 173 and 45, at 8 p. m.

The couple is taking a three week wedding trip to California.

## Engagement Announced

Mr. and Mrs. Alex Schubert, Wilmet, Wis., have announced the engagement of their daughter, Barbara Eileen, to Thomas P. Flescher, son of Mr. and Mrs. Eugene Flescher, Minneapolis, Minn. He was discharged recently from the Coast Guard at Great Lakes, Ill. No wedding date has been set.

## Parents of Daughter

Mr. and Mrs. Larry Leon of 1101 Bishop st., announce the birth of a baby daughter, Susan Denise, born Monday, Aug. 12, in Condell Memorial hospital, Libertyville. The baby weighed 7 lbs. 12 ozs. at birth.

## Susan Denise Arrives

Mr. and Mrs. Charles Wedge of Lake Villa are the parents of a baby boy born Friday, Aug. 9, at St. Therese hospital, Waukegan.

## Home From Hospital

Mrs. Mary Willie came home recently from Victory Memorial hospital, Waukegan, where she had been since July 1st. She is convalescing at the home of her daughter and husband, Mr. and Mrs. Calvin Hardin.

## Welcome to Callows

The Robert R. Calloway family have moved to 1037 Spafford st., from Lombard, Ill. Mr. Calloway is the manager of Jack's Town and Country Store.

Mary Williams of Antioch was admitted to Victory Memorial hospital in Waukegan Thursday, Aug. 8 to undergo surgery.

Judy Ann Otterson, of Antioch, became a patient at Victory Memorial hospital Thursday, Aug. 8.

Michael Murrie, 15, the son of Mr. and Mrs. Lloyd Murrie entered Condell Memorial hospital Tuesday evening, Aug. 6, for treatment of an injured toe. The accident occurred when a piano fell on his foot. He is expected to remain in the hospital two weeks.

Mrs. Magdeline Tulp is convalescing at the home of her son-in-law and daughter, Mr. and Mrs. Harold Wilson. Mrs. Tulp underwent surgery at Victory Memorial hospital recently.

Wendy T. Midgley, daughter of Dr. and Mrs. Calvin P. Midgley of Lake Villa, graduated in the summer convocation in the 82nd annual commencement at Brigham Young University, Friday, Aug. 16. Wendy is a graduate of Antioch Township High school.

Miss Shirley Nelson, the daughter of Mr. and Mrs. Myrus J. Nelson of 1054 Victoria st., entered the T. B. Sanitarium in Waukegan Monday for treatment.

Mr. and Mrs. Warren Polley and children spent Sunday, Monday and Tuesday visiting at New Salem and attending the State Fair. They also visited Mrs. Polley's parents, Dr. and Mrs. Fred F. Sorrenson, at Normal, Ill.

## Karen Chisholm Holds New Swimming Record

Karen Chisholm, 13 year old granddaughter of Mrs. Ida Chisholm of Antioch won the Junior National 1500 meter free style swimming event in New Orleans on Friday, Aug. 9. She set a new national record with a time of 22:52.6; 27 seconds better than the previous record.

Karen is also the Illinois state champion and holder of the 200 Meter 2nd medal. She is leaving Sunday to swim in the Women's Senior Outdoor A. A. U. Swimming meet at Houston, Texas.

She received her training at Channel Lake, Antioch, Ill.

## Farewell to the V. J. Keeneys

A Sunday night supper gathered 40 friends and neighbors for a farewell to Mr. and Mrs. V. J. Keeney who are moving to Florida soon. The party was held at the home of Mr. and Mrs. C. L. Heath.

Mr. and Mrs. Keeney have sold their home at 428 Harden st. and are moving to Fort Meyers, Fla. Keeney who worked as station agent for the Soo Line here since 1941, retired recently.

Antioch Chapter No. 428 Order of the Eastern Star will resume its meetings after the summer vacation on Thursday evening, Aug. 22, at the Masonic temple.

Mrs. O. E. Hachmeister of Baltimore, Md., is visiting her daughter and husband, Mr. and Mrs. Arthur Trieger, of Grass Lake road, Antioch.

## Completes Six Weeks Officer's Training

John C. Topercer, Jr., son of Mr. and Mrs. John C. Topercer of 913 Main st., Antioch, completed six

John C. Topercer, Jr., weeks of officer training July 27 at the Marine Corps Schools, Quantico, Va.

As a member of the Platoon Leaders Class, he will be eligible for appointment as a second lieutenant in the Marine Corps upon completion of one more summer training session at Quantico and graduation from college.

Mr. and Mrs. Jeff Mitchell of Kansas City, Missouri, were dinner guests of Mr. and Mrs. Howard K. Gaston and Mrs. H. E. Shepard Tuesday. They also visited Mr. Shepard at Victory Memorial hospital, Waukegan.

## Rainbow Girls Plan Dinner September 7

The regular meeting of the Antioch chapter of the Order of Rainbow for Girls was held Monday night and a majority service was given to Nancy Quinn by Mrs. Hunter.

Tuesday evening Peggy Cardiff, Donna Gibbs, Nancy Scott, and Joan Wagner accompanied by Mrs. Gibbs and Mrs. Mantis of the advisory board attended a meeting in Millburn. Plans for a dinner will be prepared by Mrs. Anne Heath, assisted by Diane Mantis and Faye Mann.

## VFW Open House Scheduled After Movie Tomorrow Night

The Antioch Veterans of Foreign Wars will hold open house in their clubrooms, 894 Main st., after the showing of "The D. I." at the Antioch Theatre Friday and Saturday nights.

VFW Commander James Mueller said that all servicemen or ex-servicemen and their wives are invited.

"A lot of ex-servicemen are going to want to see the movie, and we thought it would be a good opportunity to get everyone together afterward for a gab-fest," he said. "The D. I." starring Jack Webb, is the story of a Marine drill instructor.

Sharon Dittman, daughter of Mr. and Mrs. A. L. Dittman of Loon Lake, entertained the high school MYF with a swimming party and wiener roast at her home last Thursday evening.

Mrs. Helen Mani of Gus and Helen's Resort, Grass Lake, left Monday for a brief visit with her daughter, Mrs. Shirley Gerhard, at Midland, Mich.

Mrs. El Roy Anderson and son, Kenneth, are visiting her father, E. C. Turner, who is in the hospital in Grinnel, Iowa.

Mr. and Mrs. Andrew Crull of Tucson, Arizona, are visiting Mrs. Crull's sister, Edna Cable, of Antioch for two weeks.

Mr. and Mrs. Nathan Beiser, Dickie, Debbie, Rickie, and Roddie of Cedar Lake rd., Lake Villa, are vacationing at Lake of the Ozarks, Missouri.

Mrs. Clarence Olson and family returned recently from a ten day vacation trip to Ludington, Mich.

## Accidents in 1956 Cost U. S. \$ 9 Billion

"The economic loss from accidents in the United States in 1956 would have built about 224 Empire State Buildings," the National Safety Council said today. And that's almost 23,000 floors!

The 1957 edition of "Accident Facts," the Council's statistical yearbook, lists the nation's loss from all accidents in 1956 at 11 billion dollars.

Motor vehicle accidents during the year cost 5 billion dollars, and work accidents nearly 4 billion, the booklet states.

## PREVENT HOT WEATHER CHICKEN LOSSES

Preparation for cooling birds during extremely hot weather is a wise move, say University of California scientists.

They think the best system to prevent death is fogging the birds with a fine mist spray. Fogging nozzles should be set six to eight feet apart and should operate about one minute out of every ten, or more often if the heat is extreme. Installation cost is about 30 cents a bird, reports the July Successful Farming magazine.

Because of the danger of hens dying from heat prostration, trap nests should be watched closely and birds removed from them regularly. Stricken birds can sometimes be saved by dousing them in a pail of cold water.

## Gems of-Thought

### CONFIDENCE

Confidence in another man's virtue is no slight evidence of one's own.—Montaigne

Trust men and they will be true to you; treat them greatly and they will show themselves to be great.—Emerson.

No great deed is done by falterers who ask for certainty.—George Eliot.

Fields are won by those who believe in winning.—T. W. Higginson

Society is built upon trust, and trust upon confidence in one another's integrity.—Robert South.

Our surety is in our confidence that we are indeed dwellers in Truth and Love, man's eternal mansion.—Mary Baker Eddy.

### Don't Be a Litterbug

"The national rubbish problems still retain major proportions. Trash removal from primary highways still costs some 50 million dollars a year. The cost to towns, cities, parks, and beaches is beyond estimation. Citizens should recognize their personal responsibility for careful disposal of their own refuse."—Kankakee Daily Journal.

### Something to Think About

"When we get smug about our civilization, here is something to think about; half of the world is in Asia; most of the world is non-white; most of the world is poor; most of the world is ill fed; most of the world is sick; most of the world is illiterate." — Highland Journal.

As of a late date, more than \$300 million from individual investors was involved in the planning and construction of atomic electric plants and related research. 44 electric companies were participating in building nine reactor plants with a capacity of over 1,000,000 kilowatts.

### Card of Thanks

Mrs. Wiebke Warnecke wishes to express her appreciation and thanks to all her friends for the many beautiful cards received while in the hospital.

## Boy Scout Troop 92 Attends Summer Camp, Deer Lake

This is the camping area at the Boy Scout camp at Deer Lake, between Antioch and Rte. 45, just off Rte. 173. Scouts from troop 92 are playing hosts to other Antioch area Scouts.

It's "mess call" at Troop 92's summer Scout camp at Deer Lake east of Antioch. Looking over the damage, above, are Ron Olsen and Bruce Wolfert. One of the things the Scouts are learning is to cook their own meals.

Taking it easy in the "sack" at Troop 92's Boy Scout summer camp, left to right, are Steve Delany, Tom Solar, and Cliff White. The 11-day session at the camp at Deer Lake ends August 20.

A group of Scouts and leaders line up at the target range at Troop 92's summer camp at Deer Lake. Left to right, kneeling, are Terry Folbrink, Les Hribar, George Sterbens, Bill Brook, Tom Konitzer, and Richard Prange. Standing are Jim Gibson, Jerry Jacobs, Ron VanRooyen, Paul Yancey (with rifle), Bob Long, Douglas Jacobs, Jim Cermak, Mel Cermak, and Mike Solar. Adults, background, are Charles Cermak, Dr. Charles Solar, and Edward Jacobs.

### So this is HOMEMAKING

The other day, Bill suddenly announced that he just had to have a workshop. "And while I'm at it," he decided, "I'll fix up the basement—tile the floor and put up some wood paneling—make it into a real game room. How about that?"

"I don't want to curb your enthusiasm," I replied, "but need I remind you that your golf bag mildewed down there? Our basement is so damp, we could grow mushrooms in it!"

"It so happens, my dear, that I think of everything," Bill grinned. "Before I buy a foot of paneling, we're getting an RCA Whirlpool dehumidifier."

"A what?" I yelled, visualizing a monstrous machine.

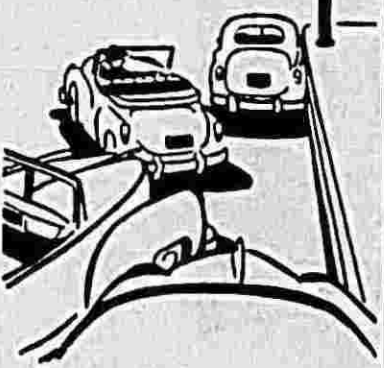

Bill explained patiently that this appliance doesn't look like a machine at all. I was relieved when he described a compact green and gold cabinet less than 18 inches high.

"If it's that small," I suggested, "maybe we need two."

Bill laughed at my ignorance. "Hardly! This dehumidifier removes over three gallons of moisture from the air a day—enough to control the humidity in a room 40 by 30 feet. And it can be hooked up to a drain to dispose of the accumulated water. Incidentally, it's mobile, too. Rolls on casters so you can take it where you need it."

Well, who am I to talk myself out of a game room? We'll get the tile and the wood paneling as soon as we get that dehumidifier.

### A SNEAKY TRICK

Stealing a parking space from another motorist who found it first and is backing into the spot isn't only unfair but dangerous. This lack of fair play can easily lead to violent displays of temper and "accidents" start happening. Courtesy costs so little and is so contagious.

© AMERICAN MUTUAL LIAB. INS. CO.

### May Be the Answer

"An important story for farmers lies with the staid and sterile laboratories of chemists and other researchers across the nation. It is the slowly-dawning day of 'chemistry,' the utilization of all manner of plant fiber and grains for industrial purposes and this will be the answer to farm surplus; and perhaps in the not too distant future there will be a pleasing, howling demand for crops that now glut the market."—Mattoon Journal-Gazette.

### GIVE THEM THE TOOLS . . .

... TO HELP THEMSELVES

Exciting changes are stirring in underdeveloped lands. Millions are struggling to increase their earnings, their knowledge, their strength to work and learn. But they need CARE farm and trade tools, sewing machines, up-to-date books, school kits, health supplies—the tools to build vigorous, trained, self-supporting people. Help make world history. Mail your contribution today!

### For a Picnic . . . Roast of Lamb

All of a sudden, some one says "Let's have a picnic!"—with Sunday's dinner cooking in the electric roaster; rolled roast of lamb, scalloped potatoes, corn and tomato scallop! . . . Ah, but you can take it with you!

With the meat fully cooked in the still-hot roaster, wrap a blanket around it all to stow away in the trunk of the family car. It will taste so much better in the park!

### ROLLED ROAST OF LAMB

Ask your meat dealer to bone, roll, and tie for roasting a shoulder or leg of lamb. Find out the weight of the finished roast. To prepare, push slivers of garlic into deep slits cut in roast with sharp paring knife. Rub roast with cut lemon half. Sprinkle with salt and pepper.

Cook in electric roaster or oven of range at 325° F. about 25 minutes to the pound for "medium". Better still—use a roast meat thermometer. While 182° F. (well-done) is the suggested temperature marked on most thermometers, do try 170° F. for a flavorful, juicy meat with a delicate pink tinge. Follow roaster or range directions for cooking a complete meal with the lamb.

For a picnic, include a thermos bottle of barbecue sauce heated with some butter, and a package of round sandwich buns. Slip a generous slice of the roast lamb between bun halves, topping the lamb with the hot barbecue sauce! Ummm—what a Barbecued Lamb-wich!

### Dupre Boy to Leave Hospital

Returning home soon from the hospital will be James Dupre, 12, the son of Mr. and Mrs. John L. Dupre of 604 N. Main st. James underwent a skin grafting operation August 5 and will be released from St. Therese hospital within the week if the operation is a success. James suffered a fracture and lengthy lacerations of his right leg when the motor-scooter on which he was riding crashed into the rear fender of a mosquito fog truck on the evening of July 3rd.

### HOSPITALIZED WOMAN NEEDS BLOOD

Mrs. Mary S. Hansen of Long Lake is a patient at the Presbyterian hospital in Chicago and is in dire need of blood. There have been many blood donors already, but she has been using the blood faster than it can be supplied. Mrs. Eric Forrester, her daughter, has made the plea that anyone able to donate do so at either St. Therese hospital or the Bloomberg Memorial blood bank in Waukegan.

### Difference in Emphasis

"The Second Mayflower's arrival reminds us that many there are who trace their families back to Plymouth Rock but can't tell you where their teen-age children were last night."—Bluffs Times.

### Seems to Be

"The basic principle of collecting taxes has always been predicted on charging what the traffic will bear."—Near Loop Economist.

### Never Forget It

"Thank God we live in a free country where we have the privilege of speaking our mind, of criticizing or praising as the notion strikes us, all of which makes for democratic existence." — Carmi Times.

## Library News

Aaron Copeland, one of America's most highly regarded composers, tells us how to increase our enjoyment of music through creative listening in his book, "What to Listen for in Music." Since great music is now available to all of us through records, radio and TV, it is interesting to know what the composers wanted us to hear when they created each masterpiece. He also discusses contemporary music, music from films, and "modern" music. "What to Listen for in Music" was presented to the Antioch Township Library in memory of Mrs. Carl S. Clingman.

Many fine new books have been added to the library recently. "The Hidden Persuaders," by Vance Packard, introduces a new term to our language: "Motivational research." If you are interested in why you smoke the cigarette you do, why you ride in the car you do, why you use the cosmetics you do, etc., etc., this book will "explain" your reactions to the advertising that sold you.

"Go South to Sorrow" is Carl T. Rowan's report on conditions in the deep South today with accent on desegregation. Quentin Reynolds' "They Fought for the Sky" describes combat operation in the air during World War I. "Rascals in Paradise," by James Michener and A. Grove Day, is a must for people who enjoy tales of high adventure.

## Auxiliary News

Past Presidents' Parley  
Antioch Unit 748, American Legion Auxiliary honored its past presidents at the August 9 meeting of the unit. A pot luck dinner was served at 6:30 p. m., after which a short business meeting was held. Community singing and several games of cards completed the evening's entertainment. Each past president received a gift from the Unit. Past presidents present were Carolyn Horan, Eva Gaylord, Agnes Hills, Maude Johnson, Rose Kennedy, Deborah Van Patten, Clare Horton, Dorothy Horan, Pearl Anderson and Vera Horton.

Picnic at Downey  
Antioch, Zion and Lake Zurich Units were hostesses at a picnic Aug. 13 for the patients in Bldg. 66 at Downey hospital.

Entertains Officers  
Mrs. Vera Horton, president of Antioch Unit entertained her corps of officers and chairmen with a party in the Legion Home Monday evening. The evening's entertainment began with community singing of hymns and some popular songs. Cards followed, then refreshments were served. Mrs. Horton presented each officer and chairman with a gift as a token of remembrance of her year as president.

Convention Reports  
The next regular meeting of Antioch Unit will be held Friday, Aug. 23 at 8 p. m. Delegates to the State Legion convention, held in Chicago Aug. 1-4, will be present to give reports on business transacted at the convention. This will be the final meeting of the year before installation of officers on Sept. 6.

## HEALTH TALK

## Hot Weather Affects the Skin

With the advent of hot and humid weather, many persons exhibit symptoms suggestive of allergic conditions which manifest themselves on the skin. These may have been latent, only to take shape with weather changes, or they may suddenly develop because of a person's marked intolerance to certain chemicals or other ingredients, the Educational Committee of the Illinois State Medical Society observes in HEALTH TALK.

Hot weather primarily affects the skin in three ways. With the increase in the burning rays of the sun, there is a natural increase in their potency to burn the skin. Rising temperatures promote excessive perspiration which cannot evaporate easily, or be absorbed into clothing, if the humidity increases. These three factors can produce a harmful effect on the skin.

Excessive exposure to the sun is

a dangerous practice. Apart from any more or less immediate discomfort it can produce, there are more serious consequences which can develop. Naturally, the amount of sun any of us can tolerate is dependent primarily on the amount of pigment or skin coloring. Redheads, for example, are deficient in pigment and consequently burn easily. Blondes are also more susceptible than brunettes.

Protective creams and lotions should be employed in acquiring a sun-tan, and the process of exposure should be carried on slowly. While a rich mahogany may appear glamorous, the skin can be made considerably rougher and scaller in the process of acquiring such a tan. A severe burning should be avoided because of the numerous complications that may develop, resulting, frequently, in infections and very often a coarse, dry skin. The wise person will expose his skin to the sun in gradual amounts of time.

Contact dermatitis is another result of skin sensitivity. Lotions,

creams and other cosmetics, perhaps not previously used, will, in some sensitive persons, produce severe skin reactions. Another form is one that develops from the poison ivy plant. In itself the plant does not cause the eruption; its juices are responsible. This contact may be established through intermediary objects, such as a pair of boots, a golf club, or a dog, any one of which may have been contaminated with the sap of the poison ivy plant.

Excessive perspiration, particularly when it is not able to evaporate freely, can produce various local irritating effects on the skin, the best known of which is prickly heat. Indirectly, excessive perspiration can favor the development of fungous infections, particularly ringworm of the feet. The horny layer

of the skin becomes more sodden, especially between the toes, and the moist, damp areas become nesting places for fungi which may lie dormant for months and even years. Careful cleansing and drying of the feet are essential, and the application of talcum powder is a pleasing prophylactic against the infection. Once it develops the ringworm infections are difficult to clear up.

Nothing gives your kitchen

## THE MODERN LOOK

like a modern electric range

... nothing cooks cleaner, cooks cooler or cooks food faster!

As this modern kitchen clearly shows, today's trend is to electricity. And perhaps the best example of this is the electric range. Smart looking, convenient. Insulated on all 6 sides (as are all electric ovens) you get even, steady heat for baking and roasting. No guesswork with electric surface units either. The heat you set is yours automatically every time. And the heat goes directly into the bottom of the pan, not up the sides and into your kitchen. But the thing you'll appreciate most is the way your electric range stays modern—year after year.

## Statistics Prove That Vacationers Drive Faster

A recent speed survey shows out-of-state cars average higher speeds than Illinois cars. This, says the Illinois Division of Traffic Safety illustrates the common habit of drivers on long trips to go faster than those going shorter distances. Common sense would indicate that drivers should use less speed on roads which are unfamiliar and on trips which call for long hours at the wheel. Extra speed is the reason why many who start out for a happy vacation trip meet with accidents along the way.

In spite of the terrifying statistics of death on the highway it is still possible to take a pleasant and safe motor trip of any length you may desire. Here's how:

1. Plan your journey in easy daytime trips.
2. Start on time, make rest stops frequently.
3. Stop each day before you get tired.
4. Be alert for road signs and markings.
5. Use less than your ordinary speed because of being amid unfamiliar surroundings.
6. If traveling on a toll road or expressway for the first time, be sure you know the ground rules. Don't be ashamed to ask—others have.

This is the best recipe for returning refreshed and safe.

## Car Care Is Not as Expensive as You Think

How do you keep a car from running down-at-the-heel? That's a question that almost every car owner asks at some time or another. Not only is a well-kept car a pleasure to drive, but it's also worth a

lot to your local dealer when it comes time to trade it in for a newer model.

Specifically, here are a few of the hints offered by Howard J. Hopkins, of the Puroator Automotive Research Bureau, Rahway, N. J., in their latest bulletin on car care.

First off, spend a little time taking care of your paint job. Wax the car often, and try to keep it out of the elements when parked.

Second, keep the motor as clean as possible. That means changing the oil filter when necessary, and keeping your eye on the air cleaner, making sure to clean it as often as needed. (If you've got a 1957 car, you may have one of the new dry type air filters, which can be cleaned quickly and efficiently in a minute or so.)

Thirdly, take care of your car's interior. It takes nothing more than a set of seat cushions, a whisk broom and occasionally a little wax but it'll make your car worth up to \$200 more later on, when you trade it in!

## Traffic Problem

The two car-lengths I ought to drive Behind the car ahead, I usually find are occupied By two more cars instead.

—Stephen Schlitzer in the July Successful Farming magazine.

The Lake County Council of the VFW voted to sponsor the Capper's Farmer magazine campaign.

This is a worthy cause which should be backed by all members of the VFW. A salesman carrying credentials from the VFW will come around for subscriptions. You are urged to subscribe, but only to the magazine that you want. Profits from this campaign are used to buy hospital equipment (wheel chairs, crutches, etc.) for use by all posts in the Council.

The next Council meeting will be held Sept. 11 at the Libertyville Post.

Hospital Chairman Kay Kasting is collecting books or magazines for Downey, such as McCall's, Popular Mechanics, Sports Magazines and Pocket editions. If you have any to give, please bring them to Mrs. Kasting's home before August 19.

Fifth District President Mrs. Helen Attig was a guest at the VFW Auxiliary meeting Monday, August 5.

Mr. and Mrs. Clarence Blumen-schein and granddaughter, Norma, spent a few days last week visiting the Dells and other points of interest in Wisconsin.

Mr. and Mrs. Warren Sheehan attended the 1937 class reunion of the Antioch High school.

Florence Petersen attended the wedding of her niece, daughter of Mr. and Mrs. George McClure of Waukegan, last Saturday.

Mr. and Mrs. Jacob Fish visited Clemente and Culver City, Calif. They have returned from a two week vacation in California.

Mr. and Mrs. Leonard Armstrong and sons spent a few days at Starved Rock.

Mrs. Ella Henry of Chicago was a guest of honor at a party celebrating her 73rd birthday last Sunday. The party was held at the home of Mr. and Mrs. Burt Henry, Rte. 1, Venetian Village. Guests included Mr. and Mrs. Lester Henry of Lake Villa, Ella Henry, of Venetian Village, Mr. and Mrs. Harvey Henry of North Fox Lake Heights, Antioch, Mr. and Mrs. Walter Henry, Mr. and Mrs. Charles Matuz and Miss Zetta Henry, all of Chicago. Twelve grandchildren were in attendance to sing "Happy Birthday, Grandma Henry."

Mary Elizabeth Schwicht, daughter of Mr. and Mrs. Louis Schwicht of Sand Lake road was united in marriage Saturday, August 10, to Mr. John R. Matteoni of Antioch, at St. Peter's Catholic church at Antioch at 3:30 p. m. A reception was held at the VFW home on Grand Avenue and Soo Line Rd., in Lake Villa.

Joseph Grabowski, Walter Schneider and grandsons Bernie Ray and James of Grayslake and several friends are enjoying a vacation in Canada.

Steve Hurdish of Waukegan called on friends in Lake Villa Sunday.

Tina Gerber and Arlene Gedman spent the week-end visiting Mr. and Mrs. Heley and family at East

Troy, Wis. Mrs. Heley underwent surgery last week.  
Carol Hollis of Waukegan spent Sunday at the home of Mr. and Mrs. Fred Bartlett, Jr.  
Mr. and Mrs. Harold Fillweber and daughter of Antioch visited the Galliger home Sunday.

## Employment Picture Underwent Changes In Recent Years

NEW YORK—The structure of employment in manufacturing has been undergoing a significant change in recent years as between production and nonproduction workers, according to data compiled by the U.S. Bureau of Labor Statistics.

The figures show that the rise in manufacturing employment in the period since the end of World War II has been dominated by the non-production classification, embracing a diversified group running from executives through research personnel to clerical staffs. Of the 1.6 million persons added to manufacturing payrolls between 1945 and 1956, 1.3 million, or four out of every five, have been in the non-production group.

As a result, the number of non-production workers rose to a record high of more than 3.7 million last year. This was the equivalent of 22 per cent of all persons employed in manufacturing, a proportion seldom approximated in the past. The number of production workers came to 13.2 million in 1956, and has fluctuated in a comparatively narrow range in recent years.

This shift in the composition of jobs in manufacturing is in line with the long-term trend of employment throughout the economy, with the white collar worker catching up with and passing the blue collar classification as the biggest single group in the working population.

## Sun Glare Can Cause Accidents

URBANA, Ill.—Sometimes the sun can be an enemy. This is particularly true in the summer months when the sun's glare can be a decided safety threat to drivers, says O. L. Hogsett, extension safety specialist at the University of Illinois.

Glare from the sun, or reflections from cars and pavement, combined with high speed will produce numerous accidents during the coming vacation season.

Many other accidents will result from "visual fatigue" caused by the strain of looking against sun glare.

The new styling of cars, with greater glass area, lavish chrome trims and light-reflecting colors, has greatly increased the hazard from glare. Another factor is the popularity of convertibles and sport cars, whose drivers have little protection from the sun.

Here are Hogsett's suggestions for reducing glare and decreasing danger:

Use a visor to protect your eyes from overhead glare.

Avoid driving at sunrise and sunset, when the rays of the sun hit directly into the windshield.

## Prenatal Mortality Continues a Problem

NEW YORK, N.Y.—Prenatal mortality—death of infants before or soon after birth—continues to be a major medical problem, according to a recent study. In recent years prenatal deaths have averaged more than 135,000 a year in the United States. Approximately half of these are stillbirths, and the remaining half are babies dying within one week of birth.

Some progress has been made in reducing the prenatal mortality rate—it fell about one-third between 1940 and 1954—but the improvement has lagged far behind that for childbirth mortality among mothers, which decreased 86 per cent in the same period.

The major factors contributing to the death toll in the prenatal period, the study shows, are lack of early and adequate prenatal care; twin and other plural births; puerperal toxemia; chronic and infectious diseases in the mother; and the use of inadequately trained midwives, a practice which is still fairly common in some sections of the country. Cesarean births, while quite safe for the mother, are still attended with high risk to the infant.

## Heart Diseases Hurt American Industry

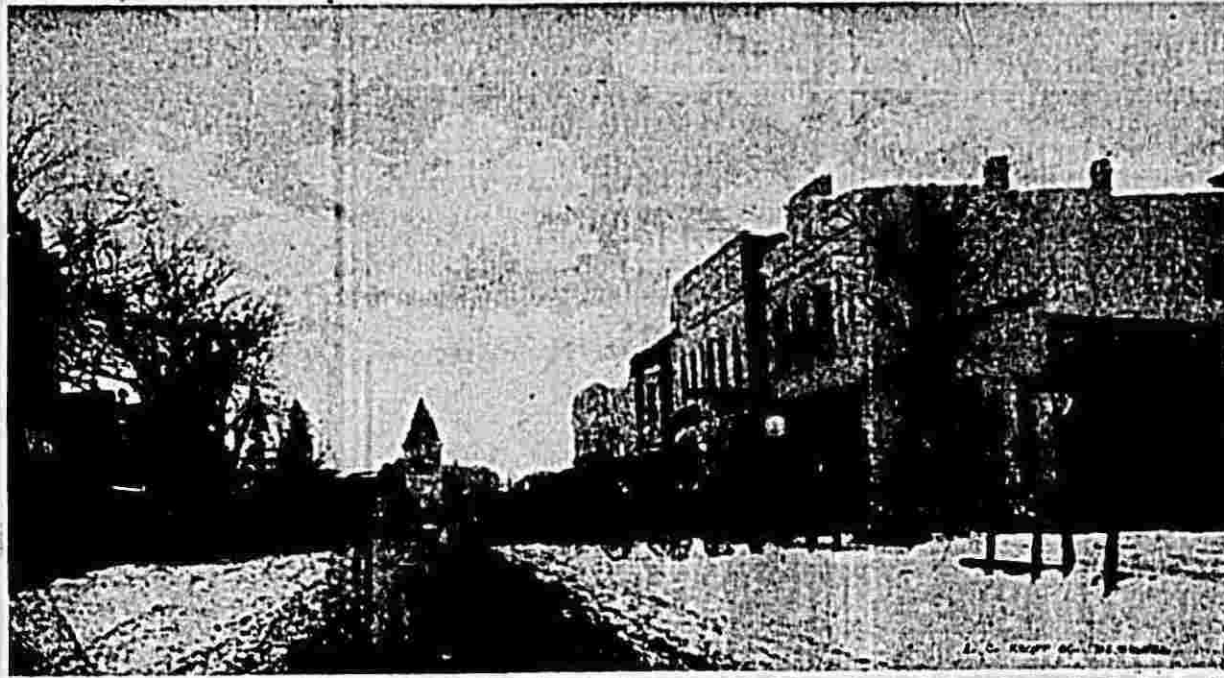

CHICAGO—Heart diseases rob business and industry of trained men during their most productive years. They deplete manpower of skilled employees and are responsible for a tremendous labor turnover and time loss.

Studies have indicated that these diseases are far more costly than strikes from a standpoint of lost productivity and are about 15ths as costly as on-the-job accidents.

### New Fog Signal

NORWALK, Conn.—A signal time for motorboats has been developed by a Norwalk concern which says its timer automatically controls fog signals to conform to legal requirements. The company says the timer actuates a horn relay, or an electric air valve in a signal cyece that its regulations covering fog signals.

## Downtown Antioch — About 1900

If you remember this scene you're at least 63 years old. It's a view of downtown Antioch, looking north, made about 1900. The picture was found on an old postcard, mailed from Antioch to Chicago in 1910. Note the Antioch Methodist Church at the end of the street.

## How Do You Rate As A Dog Owner?

How do you rate as a dog owner? Your dog can't register his complaints with you, but when he's nuzzling the ear of a neighborhood pooch, the two of them may be comparing gripes. If you're able to answer "yes" to five of the following six questions which were prepared by Bob Bartos, Manager of the Friskies Research Kennels, you're O.K. He probably has complimentary things to say about you to his friends. If you answer "yes" to only three of the questions, you're open to criticism. If you answer less than three, you probably are harboring a discontented pet in your home.

1. Are you a person of habit? If you are, you'll serve his meals on time, you'll let him out or walk him at the same time every day, set aside a certain hour for play. Since dogs are creatures of habit, they'll appreciate the same trait in you.

2. Are you able to discipline him? All dogs should be taught the fundamentals of obedience. Your dog will have a lot more respect for you if you can be stern when the occasion demands. . . insist on his obeying. If you let him have his way, he'll snicker behind your back, brag to his pals that he can wind you around his paw.

3. Are you a lover of the outdoors? Dogs have to be aired daily . . . rain, sleet, snow or hail . . . whether they're city or country dwellers. Even country dogs like company on their excursions and if you aren't game, they're apt to sit around on the porch and not get the needed amount of exercise. As for the city dog, you're not considered much of a sport if your idea of a walk is merely around the block.

4. Are you meticulous about your own toilette? If you are, then chances are you'll see that your dog's nails are kept trimmed, his ears and teeth cleaned, his coat brushed regularly, and his eyes kept clear with the help of occasional bathings.

5. Do you have periodic medical check-ups yourself? If you do, then you'll probably believe in them for your pet and take him to see his veterinarian every six months. If it's a puppy or young dog, you should see that he gets his required shots.

6. Are you a responsible person? Your pet is dependent on you for everything . . . so if you like to shift responsibility to the next person he won't get the care he needs.

## For A Slim-Dandy Barbecue Use Sauce Low in Calories

Who doesn't drool at the savory aroma and tangy flavor of the cook-out? It's part of summertime's finest fun.

And here's good news: weight watchers who haven't gotten to first base with barbecue can stop sniffling their neighbors' smoke now and start cooking up their own storm.

Dieticians have come up with a low-calorie sauce which, brushed generously over lean meats such as chicken, will turn out barbecue guaranteed not to go to waist.

Saccharin gives it just that touch of needed sweetness, but without adding a single calorie. Although 400 times sweeter than sugar, it is calorie-free; can be used for any summertime sweetening to avoid heat-producing calories.

### Barbecue Sauce

Mix in a quart saucepan:	3/4 tsp. salt
1 saccharin tablet	1/2 cup water
(1/2 grain)	1/2 tsp. paprika
3 Tbsp. cider vinegar	1/2 cup tomato paste
3 Tbsp. butter or margarine	1/2 tsp. chili powder
1 Tbsp. grated onion	3 drops Tabasco sauce
1 1/2 tsp. finely cut garlic	1 Tbsp. bottled mustard
3 Tbsp. Worcestershire sauce	

Cook and stir until mixture boils. Lower heat and cook five minutes longer. Use to barbecue lean pork chops, hamburgers, chicken and frankfurters. Makes about two cups. Calories in 1/4 cup: 46.

## Antioch Leads.....

(continued from page 1)  
ment" concerning the county's upswing in gambling, especially in the Antioch area, until his advisory committee has made its report. Moran said, however, that "gambling is everybody's business."

"Who thinks they're kidding who?" the state's attorney asked. "How long are the people of Lake County going to have this pulled over their eyes that they (pinball machines) are not gambling devices?"

### List Stamps

Here are holders of federal gambling tax stamps for slot machines in Antioch, according to Long:

Antioch Tavern, R. G. (Bud) Holtz, 898 Main st.  
Slide Inn, Lois A. McNiff, Rte. 173.  
Mehring's Resort, Paul Mehring, Lake Marie.  
Four Aces, Don R. Hartman, Rte. 173.  
Adolph's Channel Inn, Adolph G. Helm, Channel Lake.  
The Castle, Paul J. Pilk, Rtes. 173 and 45.  
Antioch Recreation, Carl R. Gibson, Rte. 173.

## Reasons why it is necessary for the Antioch Township High School, District No. 117, to ask the citizens to increase the educational and building tax rate limits.

1. The tremendous birth rate of the past several years has moved into the high school. There will be an estimated 25% increase in enrollment next year and an estimated 43% increase by 1962-63.
2. Additional teachers will be needed for instruction. The staff has been increased by 23% for 1957-58 and will need to be increased 57% by 1962-63 to keep most classes at 30 pupils. Janitors, secretaries, and cafeteria help will be added in the future.
3. Salaries have been continually adjusted for teachers and non-teaching employees to give the school a favorable level in the competitive labor market.
4. Educational and building equipment and supplies have steadily increased in cost. Increased quantities have had to be purchased. Costs have climbed in maintenance and repair.

5. Assessed valuation of the district is not increasing rapidly enough to operate on the existing tax rates.
6. The revenue derived from the September 24, 1957, levy will NOT be available until the fall of 1958. Therefore, a Board of Education must plan at least two years ahead to avoid deficit spending.
7. The maximum educational rate of 65c and the building rate of 10c were levied in 1956. This is the revenue being collected now and will be available for the 1957-58 school term. These funds will not be adequate and the Board will have to borrow to complete the fiscal year. Present tax rates are not sufficient to balance accounts in the future.
8. The high school curriculum is constantly being evaluated and improved to maintain high recognition from accrediting agencies.

## THE BOARD OF EDUCATION IS JUSTIFIED IN ASKING THE CITIZENS TO VOTE TAX INCREASES BECAUSE:

1. Boards of Education have practiced economy in the past and future Boards intend to do the same. The last successful tax referendum was in March, 1947. The tax increases requested in the referendum September 7, 1957, will be sufficient for several years.
2. Proof of economy is reflected in the low per-pupil-costs. \$397 per child spent in 1955-56 was the lowest in the county. The per capita cost has been consistently below the median in Lake County.
3. Economy is also reflected in the low total tax rate for District No. 117. The high school rate has been one of the lowest of the fourteen Lake County schools. The 1956 tax rates show that Antioch High ranks third low in comparative standing, with a total rate of .904.

For the past several years, the Boards have been sincere in practicing good business procedure, but to keep the school finances in the future on a sound basis, it will be necessary to have additional funds.
